**ENVIRONMENTAL POLICY STATEMENT – GRAHAM ASSET
MANAGEMENT**

Graham Asset Management, operating as a provider of both Integrated Facilities Management Services, and Highway Maintenance & Traffic Management Services, is committed to managing environmental issues in a responsible and sensible manner.

In accepting our responsibilities to afford future generations the choices and opportunities that we are currently enjoying, the company tenders, designs, plans, constructs and maintains construction projects in accordance with an integrated management system, commensurate with the requirements of ISO 14001:2004.

We have examined our environmental performance and identified the areas of our business activities, products and services which interact with the environment. We are committed to responsibly managing these aspects of our business to avoid, reduce or control pollution and will continually improve on environmental performances in these areas.

Graham Asset Management has therefore set objectives and targets within the framework of a programme for continual improvement. We monitor and measure our environmental performance through meaningful key performance indicators, regularly reviewing this progress against our stated objectives.

We will promote sustainable construction objectives and apply techniques for the practical delivery of these principals in project specifications, development, and whole life operation. In addition we will influence others within the project teams to apply sustainable construction principals and deliver improved environmental performance where they have control or influence.

We will ensure compliance with all applicable legislative and other requirements which relate to the Company's environmental aspects throughout all stages of the project where we have control.

Graham Asset Management will acknowledge, respond appropriately, and take into account of the views of the public and any other interested parties with respect to our operations and make this environmental policy available to them. In addition, this policy statement will be communicated to all persons working for and on our behalf.
